Business of Our Company

Overview

Trisura Group is a leading international specialty insurance and reinsurance holding company with subsidiaries operating in the surety, risk solutions, corporate insurance and reinsurance niche segments of the market. Trisura Guarantee started writing business in 2006 and has a strong underwriting track record over its more than 10 years of operation. Trisura International has operated as a reinsurance company for more than 15 years and although we ceased writing new reinsurance business in 2008, we expect to recommence writing business in the near future. Trisura International will initially act as a multi-line reinsurer in support of our Canadian and U.S. specialty insurance businesses and thereafter in the international reinsurance markets as attractive opportunities arise.

Our Company operates through the following four business lines: surety, risk solutions, corporate insurance and reinsurance. Substantially all of our premiums in 2016 and 2017 have been written by Trisura Guarantee in the Canadian specialty insurance market. Trisura Guarantee is headquartered in Toronto and has branches in Vancouver, Calgary, Montreal, Quebec City and Halifax, and is licensed in all provinces and territories of Canada. Its distribution network comprises over 150 contracted insurance brokerage firms operating across Canada in all provinces and territories, and includes major international, national and regional firms as well as boutique, niche brokers with a focus on specialty lines. Our Company is actively pursuing new business opportunities that are expected to generate U.S. premiums in the coming quarters. The chart below provides a breakdown of our gross premiums written for the year ended December 31, 2017.

Gross Premiums Written (year ended December 31, 2017)⁽¹⁾⁽²⁾

Notes:

- (1) Gross premiums written includes annual bonding facility fee income.
- (2) No reinsurance premiums were written in 2017.

Specialty Property & Casualty

Our specialty property and casualty insurance consists of our Surety, Risk Solutions and Corporate Insurance business lines.

Surety

Surety accounted for approximately 34.0% of our total gross premiums written for the year ended December 31, 2017. The majority of products offered by the Surety business line are:

- Contract surety bonds, such as performance, labour and material payment bonds, primarily for the construction industry;
- Commercial surety bonds, such as license and permit, tax and excise, and fiduciary bonds, that are issued on behalf of commercial enterprises and professionals to governments, regulatory bodies or courts to guarantee compliance with legal or fiduciary obligations; and
- Developer surety bonds, comprising mainly bonds to secure real estate developers' legislated deposit and warranty obligations on residential projects.

Risk Solutions

Risk Solutions accounted for approximately 43.8% of our total gross premiums written for the year ended December 31, 2017. Risk Solutions includes specialty insurance contracts which are structured to meet the specific requirements of program administrators, managing general

agencies (“**MGAs**”), captive insurance companies, affinity groups and reinsurers. Our Risk Solutions business line consists primarily of warranty programs. Premiums and fee income generated in Trisura Specialty are expected to be categorized in Risk Solutions. The Risk Solutions business caters to three different client types:

- Companies that offer warranties and administer warranty programs;
- MGAs or reinsurers that require access to licensed insurance company paper; and
- Associations and groups seeking solutions for their members’ unique insurance needs.

Risk Solutions uses four different insurance structures, sometimes in combination, to address clients’ insurance requirements:

- Surety structure, where we stand behind the obligations of a warranty program administrator. In the event of the administrator’s financial failure, we will step in to ensure consumers’ warranty coverages remain intact;
- Fronting structure, where we permit our licensed status to be used by captive insurance companies to issue insurance policies or warranties in exchange for a fronting fee;
- Retrospectively rated policy structure, where we assume the insurance risk on a program, and the actual claims experience is used to determine the ultimate premium. The initial premium incorporates a margin over the expected claims to provide for adverse results; and
- Risk transfer structure, where we assume the risk of the underlying insurance program completely, partially (co-insuring, or sharing, the risk with the program administrator), or when losses exceed a specified amount (as in “excess of loss” insurance).

Corporate Insurance

Corporate Insurance accounted for approximately 22.2% of our total gross premiums written for the year ended December 31, 2017. The main products offered by our Corporate Insurance business line are:

- Directors’ and officers’ liability insurance for public, private and non-profit enterprises. These are also referred to as executive liability products;
- Errors and omissions liability insurance for both enterprises and professionals. These are also referred to as professional liability products and have tailored variations for the media and technology industries and professional practices;
- Business office package insurance for both enterprises and professionals. This product combines commercial general liability and property insurance into one comprehensive cover for small to medium-sized enterprises or practices; and
- Fidelity insurance for both commercial entities and financial institutions.

Reinsurance

Trisura International ceased writing new business in 2008 but previously wrote quota share reinsurance (prospective), loss portfolio transfers (retrospective) and niche, specialty contracts covering international risks across multiple commercial lines. Currently, Trisura International is managing its remaining portfolio of in-force reinsurance contracts and will shortly recommence writing new business, initially in support of our Canadian and U.S. specialty insurance businesses. The remaining in-force portfolio of reinsurance contracts is dominated by one large life annuity reinsurance contract denominated in euros, on which annuity reserves and supporting assets change in response to interest rate changes.

Distribution

Our Company's Canadian distribution network comprises over 150 contracted insurance brokerage firms operating across Canada in all provinces and territories. These include major international, national and regional firms as well as boutique, niche brokers with a focus on specialty lines. We are selective in partnering with a limited brokerage force, focusing our efforts on those that are leading brokerage firms in the industry with expertise in specialty lines. We believe in creating positive experiences for our brokers by providing exceptional service and strong products through a solutions-oriented and expert underwriting team. Furthermore, we develop deep and lasting relationships with our brokers and work with them on a strategic level on planning for mutual success. We regularly canvass our brokers to get feedback on where we can improve.

In the U.S. market, our focus will be on building strong and profitable relationships with program administrators, insurance organizations, reinsurance companies and reinsurance intermediaries to generate business opportunities. Many of these relationships already exist with our management team and can be leveraged to source new business.

Competition

Our Company is a specialty insurance provider. There are numerous competitors in the markets and geographies in which we operate.

The surety markets are relatively concentrated. In 2016, the top five surety companies operating in Canada had a combined market share of 69%. In 2016, we stood as the sixth largest company in the Canadian surety marketplace, with a market share of 6.5%.

Our Risk Solutions business has seen stable market conditions in its segments of the marketplace. The number of competitors is limited, with few having significant market share.

Products written by our Corporate Insurance business are subject to intense competition, and underwriting conditions remain challenging. We continue to increase our penetration of those markets by focusing on our broker relationships and ensuring we remain in step with the ongoing product enhancements that occur in the corporate insurance business.

The international reinsurance marketplace is highly competitive. The supply of reinsurance capital available to write reinsurance is abundant and at record levels due to the relative absence of major catastrophe losses in recent years, low interest rates which have increased reinsurers' capital through realized and unrealized gains on their bond portfolios and the influx of alternative providers of reinsurance capital (including hedge funds). In recent years, this has resulted in

supply outstripping demand for reinsurance, resulting in reductions in market pricing. In addition, some areas of reinsurance have seen significant erosion of policy terms and conditions designed to mitigate losses for reinsurers. While there are some current indications that the soft market conditions are close to or at the bottom, there can be no guarantee that these soft markets might not continue for some time.

Investment Management

Our investment objectives are to produce an attractive total return on our invested assets after taxes to protect and enhance regulated underwriting capital on a long-term basis and to maintain adequate liquidity for specialty insurance operations. All investment decisions are made with the intention of providing a stable income base without producing an undue level of investment risk.

Currently, we have outsourced a portion of our investment management to Soundvest Capital Management and Brookfield. We are in the process of developing internal management capabilities and expect to bring much of the investment management function in-house going forward.

Employees

Our Company has 139 employees as of December 31, 2017, consisting of three employees at Trisura Group, 121 employees at Trisura Guarantee (119 of whom are full-time employees), five full time equivalent employees at Trisura International and 10 full time employees at Trisura Specialty.

Risk Factors

Our Company's activities expose us to a variety of risks which broadly fall into the categories of financial risks, which includes market risk (i.e. currency risk, interest rate risk, and equity price risk), credit risk and liquidity risk, and insurance risks that could adversely impact our financial condition, results of operations and equity value. For information about risk factors related to our Company, reference is made to the section entitled "Risk Management" on pages 23 to 26 of our Management's Discussion and Analysis for the fiscal year ended December 31, 2017, which pages are incorporated by reference in this annual information form and are available on SEDAR at www.sedar.com.

Responsibilities of the Audit Committee

The Audit Committee is responsible for: (i) monitoring our systems and procedures for financial reporting and associated internal controls, and the performance of our Company's auditors; (ii) reviewing certain public disclosure documents before their approval by the full Board and release to the public, such as our quarterly and annual financial statements and management's discussion and analysis; (iii) recommending an auditor to be nominated for appointment as the external auditor, and for approving the assignment of any non-audit work to be performed by the external auditor; (iv) monitoring financial and non-financial risk exposures and the steps taken to monitor and control such risk exposures; and (v) annually reviewing the guidelines which apply to our Company's treasury and risk management activities and overseeing our Company's overall risk management activities. The Audit Committee meets regularly in private session with our Company's auditors, without management present, to discuss and review specific issues as appropriate. The Audit Committee Charter, as approved by the Board on June 20, 2017, is included in Appendix 'B' of this annual information form.

External Auditor, Fees and Services

The external auditor of our Company is Deloitte LLP ("**Deloitte**"). The following table provides information about the aggregate fees billed to our Company for professional services rendered by Deloitte during 2017:

<i>Years ended December 31 (thousands)</i>	2017
Audit Fees.....	\$396

Audit Fees

Audit fees include fees for services that would normally be provided by the external auditor in connection with statutory and regulatory filings or engagements, including fees for services necessary to perform an audit or review in accordance with generally accepted auditing standards. This category also includes services that generally only the external auditor reasonably can provide, including comfort letters, statutory audits, attest services, consents and assistance with and review of certain documents filed with securities regulatory authorities.

Pre-Approval Policies and Procedures

The Audit Committee has adopted an Audit and Non-Audit Services Pre-Approval Policy (the "**Audit Policy**"), which governs the provision of services by its external auditor, currently Deloitte. The Audit Policy requires Audit Committee pre-approval of all permitted audit, audit-related, tax

and other non-audit services. It also specifies a number of services that may not be provided by Trisura Group's external auditor, including all services prohibited by law from being provided by the external auditor.

Under the Audit Policy, all permitted services to be provided by the external auditor must be pre-approved by the Audit Committee or a designated member of the Audit Committee. Any pre-approval granted by a designated member must be reported to the Audit Committee at its next scheduled meeting.

Under the Audit Policy, the Audit Committee has established a fee threshold for pre-approved services, which is that the aggregate fees paid to the external auditor for pre-approved services must equal no more than 25% of the anticipated audit fees for our Company for the prior year. Annually the external auditor provides the Audit Committee with a report of the audit, audit-related, tax and other non-audit services provided for the year, together with the actual fees incurred, for the Audit Committee's ratification.

Appendix 'A'

Summary of Terms and Conditions of Trisura Group's Authorized Securities

Common Shares

Except as described below under *Election of Directors*, each holder of Common Shares is entitled to receive notice of and to attend all meetings of the shareholders of Trisura Group and is entitled to one vote for each Common Share held at all meetings of the shareholders of Trisura Group, except for meetings at which only holders of another specified class or series of shares of Trisura Group are entitled to vote separately as a class or series. The holders of Common Shares are entitled to receive dividends as and when declared by the Board, participating equally with holders of non-voting shares, subject to the preference of the holders of the preference shares and any other shares ranking senior to the Common Shares and non-voting shares with respect to priority in payment of dividends. Stock dividends, if any, will be declared contemporaneously and paid at the same time in equal numbers of additional equity shares of the same class and series such that stock dividends will be paid in Common Shares to holders of the Common Shares and in non-voting shares to holders of the non-voting shares. After payment to the holders of preference shares and any other shares senior to the Common Shares and the non-voting shares with respect to priority in the distribution of assets in the event of the liquidation, dissolution or other distribution of our assets for the purpose of winding up our affairs, the holders of Common Shares and the holders of non-voting shares will rank equally with each other and will be entitled to receive the remaining property of Trisura Group that pertains to shareholders in equal amounts per share, without preference or priority of one share or another.

If either of the Common Shares or non-voting shares are subdivided, consolidated, reclassified or otherwise changed, appropriate adjustments would be made at the same time to the rights attaching to the shares of the other class to ensure the preservation of the rights of each class in relation to those of the other.

Election of Directors

Each holder of Common Shares has the right to cast a number of votes equal to the number of Common Shares held by the holder multiplied by the number of directors to be elected by the holder and the holders of shares of the classes or series of shares entitled to vote with the holder of Common Shares in the election of directors. A holder of Common Shares may cast all such votes in favour of one candidate or distribute such votes among its candidates in any manner the holder of Common Shares sees fit. Where a holder of Common Shares has voted for more than one candidate without specifying the distribution of votes among such candidates, the holder of Common Shares will be deemed to have divided the holder's votes equally among the candidates for whom the holder of Common Shares voted.

Book Based System

The Common Shares may be represented in the form of one or more fully registered share certificates held by, or on behalf of, CDS Clearing and Depository Services Inc. ("**CDS**") or the Depository Trust Company ("**DTC**"), as applicable, as custodian of such certificates for the participants of CDS or DTC, registered in the name of CDS or DTC or their respective nominee, and registration of ownership and transfers of the Common Shares may be effected through the book-based system administered by CDS or DTC, as applicable.

Non-Voting Shares

The non-voting shares entitle the holders thereof to receive notice of meetings of the shareholders of Trisura Group but do not entitle holders thereof to any votes at such meetings, unless otherwise required by law. The holders of non-voting shares are entitled to receive dividends as and when declared by the Board, participating equally with holders of Common Shares, subject to the preference of the holders of the preference shares and any other shares ranking senior to the non-voting shares and Common Shares with respect to priority in payment of dividends. Stock dividends, if any, will be declared contemporaneously and paid at the same time in equal numbers of additional equity shares of the same class and series such that stock dividends will be paid in non-voting shares to holders of the non-voting shares and in Common Shares to holders of the Common Shares.

After payment to the holders of preference shares and any other shares senior to the non-voting shares and the Common Shares with respect to priority in the distribution of assets in the event of the liquidation, dissolution or other distribution of our assets for the purpose of winding up our affairs, the holders of Common Shares and the holders of non-voting shares will rank equally with each other and will be entitled to receive the remaining property of Trisura Group that pertains to shareholders in equal amounts per share, without preference or priority of one share or another. If either of the non-voting shares or Common Shares are subdivided, consolidated, reclassified or otherwise changed, appropriate adjustments would be made at the same time to the rights attaching to the shares of the other class to ensure the preservation of the rights of each class in relation to those of the other. In certain circumstances, if a take-over bid is made for the Common Shares only, a holder of non-voting shares may, at his or her option, and for the purpose of tendering to such take-over bid, convert any or all non-voting shares then held by such holder into Common Shares on a one-for-one basis during a specified period of time. Our Company is required to give notice of the occurrence of an event entitling the holders of non-voting shares to exercise such conversion right as soon as is reasonably practicable after the seventh day following the date upon which the offer is made or deemed to be made to holders of Common Shares.

Preference Shares

The following is a summary of certain provisions attaching to the preference shares as a class.

Priority

Each series of preference shares will rank on a parity with every other series of preference shares with respect to dividends and return of capital. The preference shares are entitled to a preference over the Common Shares, the non-voting shares and any other shares ranking junior to the preference shares with respect to priority in payment of dividends and in the distribution of assets in the event of the liquidation, dissolution or winding-up of Trisura Group, whether voluntary or involuntary, or any other distribution of the assets of Trisura Group among our shareholders for the specific purpose of winding-up our affairs.

Directors' Rights to Issue in One or More Series

The preference shares may be issued at any time and from time to time in one or more series. Before any shares of a series are issued, the Board shall fix the number of shares that will form such series, if any, and shall, subject to any limitations set out in the by-laws of Trisura Group

or in the OBCA, determine the designation, rights, privileges, restrictions and conditions to be attached to the preference shares as the case may be, of such series.

Voting Rights of Preference Shares

Except as hereinafter referred to or as required by law or as specified in the rights, privileges, restrictions and conditions attached from time to time to any series of preference shares, the holders of such preference shares as a class are not entitled as such to receive notice of, to attend or to vote at any meeting of the shareholders of Trisura Group.

Amendment with Approval of Holders of Preference Shares

The rights, privileges, restrictions and conditions attached to the preference shares as a class may be added to, changed or removed but only with the approval of the holders of such class of preference shares given as hereinafter specified.

Approval of Holders of Preference Shares

The approval of the holders of a class of preference shares to add to, change or remove any right, privilege, restriction or condition attaching to such class of preference shares as a class or in respect of any other matter requiring the consent of the holders of such class of preference shares may be given in such manner as may then be required by law, subject to a minimum requirement that such approval be given by resolution signed by all the holders of such class of preference shares or passed by the affirmative vote of at least two-thirds of the votes cast at a meeting of the holders of such class of preference shares duly called for that purpose.

The formalities to be observed with respect to the giving of notice of any such meeting or any adjourned meeting, the quorum required therefor and the conduct thereof shall be those from time to time required by the OBCA as in force at the time of the meeting and those, if any, prescribed by the by-laws or the administrative resolutions of Trisura Group with respect to meetings of shareholders. On every poll taken at every meeting of the holders of a class of preference shares as a class, or at any joint meeting of the holders of two or more series of a class of preference shares, each holder of such class of preference shares entitled to vote thereat shall have one vote in respect of each such preference share held.

Rights on Liquidation

In the event of the liquidation, dissolution or winding-up of Trisura Group, whether voluntary or involuntary, or any other distribution of assets of Trisura Group among its shareholders for the purpose of winding-up its affairs, the Holders shall be entitled to receive \$25.00 per Series 1 Preference Share, together with all accrued and unpaid Series 1 Dividends up to but excluding the date of payment or distribution (less any tax required to be deducted or withheld by Trisura Group), before any amounts shall be paid or any assets of Trisura Group distributed to the holders of any shares ranking junior as to capital to the Series 1 Preference Shares. Upon payment of such amounts, the Holders shall not be entitled to share in any further distribution of the assets of Trisura Group.

4. Limitation of Audit Committee Role

The Committee's function is one of governance and oversight. The Company's management is responsible for preparing the Company's financial statements, along with the internal audit function, for developing and maintaining systems of internal accounting and financial controls, and for developing, maintaining and monitoring systems of risk management throughout the organization. The auditor will assist the Committee and the Board in fulfilling their responsibilities for review of the financial statements and internal controls, and the auditor will be responsible for the independent audit of the financial statements. The Committee expects the auditor to call to its attention any accounting, auditing, internal accounting control, regulatory or other related matters that the auditor believes warrant consideration or action. The risk management function of the Company will assist the Committee in fulfilling its responsibilities for review and oversight of the Company's risk management program. The Committee expects the Company's risk management function and executive management to call to its attention any matters that warrant Committee consideration or action. The Committee recognizes that (i) the internal audit team and the auditor have more knowledge and information about the Company's financial affairs than do the Committee's members and (ii) the Company's management has more knowledge and information about the Company's material risks than do the Committee's members. Accordingly, in carrying out its oversight responsibilities, the Committee does not provide any expert or special assurance as to the Company's risk management activities, financial statements or internal controls or any professional certification as to the auditor's work.

5. Reporting

The Committee will regularly report to the Board on:

- a) the auditor's independence;
- b) the performance of the auditor and the Committee's recommendations regarding its reappointment or termination;
- c) the performance of the internal audit function department;
- d) the adequacy of the Company's internal controls and disclosure controls;

- e) its recommendations regarding the annual and interim financial statements of the Company and any reconciliation of the Company's financial statements, including any issues with respect to the quality or integrity of the financial statements;
- f) its review of any other public disclosure document including the annual report and the annual and interim management's discussion and analysis of financial condition and results of operations;
- g) the Company's compliance with legal and regulatory requirements, particularly those related to financial reporting;
- h) its review of risk disclosure in the Company's financial reports;
- i) the Company's compliance with legal and regulatory requirements; and
- j) all other significant matters it has addressed and with respect to such other matters that are within its responsibilities.

6. Complaints Procedure

The Committee will establish and periodically review a procedure for the receipt, retention, treatment and follow-up of complaints received by the Company through the reporting hotline or otherwise regarding accounting, internal controls, disclosure controls or auditing matters and a procedure for the confidential, anonymous submission of concerns by employees of the Company regarding such matters.

7. Review and Disclosure

The Committee will review this Charter at least annually and submit it to the Governance Committee together with any proposed amendments. The Governance Committee will review this Charter and submit it to the Board for approval with such further amendments as it deems necessary and appropriate.

This Charter will be reproduced in full as an appendix to the Company's annual information form.

8. Assessment

At least annually, the Governance Committee will review the effectiveness of this Committee in fulfilling its responsibilities and duties as set out in this Charter and in a manner consistent with the corporate governance guidelines adopted by the Board. The Committee will also conduct its own assessment of the Committee's performance on an annual basis.

9. Access to Outside Advisors and Senior Management

The Committee may retain any outside advisor, including legal counsel, at the expense of the Company, without the Board's approval, at any time. The Committee has the authority to determine any such advisor's fees and any other retention terms.

The Company will provide for appropriate funding, for payment of compensation to any auditor engaged to prepare or issue an audit report or perform other audit, review or attest services, and ordinary administrative expenses of the Committee.

Members will meet privately with senior management as frequently as they feel is appropriate to fulfill the Committee's responsibilities, but not less than annually.

10. Meetings

Meetings of the Committee may be called by any Member, the Chair of the Board, the Chief Executive Officer or Chief Financial Officer of the Company, the internal auditor or the auditor. Meetings will be held each quarter and at such additional times as is necessary for the Committee to fulfill its responsibilities. The Committee shall appoint a secretary to be the secretary of each meeting of the Committee and to maintain minutes of the meeting and deliberations of the Committee.
